

The **Warpfive Wall Mounted Windvane** is an extension of the highly successful Warpfive Rotating Windvane

This sign has all the benefits of the pavement rotating sign - namely the greatly improved visibility as it rotates and displays the brand or message prominently.

Available in three different sizes, this product caters for shop fronts and buildings who wish to grab attention away from their competitors with unique and attractive rotating signage.

### Why spinning signs are superior to other signs:

- Greatly improved visibility
  - spins in the wind
- Good durability
- Installed out of vandal reach
- Strong branding
- Cost effective exposure
